2. Click **Print Tags** at the top of the screen.
3. Click the **All box**, to select all of your items, 8 tags will be printed per page.
4. Click **Generate Tags**, click **OK**.
5. Choose **“Click Here to Open Your Tags Document”**
6. **Prepare your printer, PLEASE READ THIS SECTION CAREFULLY!**
 - Load your printer with **CARDSTOCK** paper (**White or pastel/light colors – NO dark colors, NO GREEN OR BLUE**) About **65 or 67# weight** is good. It is advised not to use the 110 weight because it is heavy and could damage your printer. **Do NOT print on regular Copy paper.** The tags WILL tear and wrinkle and bend and will cause problems. Do not use “fuzzy paper”, which causes the ink to run. Make sure the paper is loaded properly, has enough toner.
 - Must use an ink jet or laser printer with normal toner (no dot matrix printers)
 - Must use **NORMAL** or **DRAFT** print setting – Best quality is too dark and causes the barcodes to bleed –test one page of tags and make sure the barcodes are crisp and clear and not bleeding.
 - Must make sure if you have a color printer, that you have selected **"Black Cartridge Only"** from the printing properties screen. Otherwise, the tags can appear purple and blurry.
7. **Print the tags.**
 - When you select to print your tags, click on properties/preferences, make sure you are using **normal print mode, Black Ink Only**, and Orientation is **Landscaped**. DO NOT print in Portrait, it is difficult to scan.
 - Cut the tags apart and attach them to your items with tape. **Use Blue Painter’s Tape**, it is the easiest to remove. It is OK if you cover part of the information on the tag just don’t cover the barcode. **DO NOT TAPE OVER THE BARCODE.**

Staples sells the appropriate CardStock that you will need to use. Make sure you purchase 65 or 67 weight cardstock. It must be either white or pastel, no bright or dark colors, NO GREEN or BLUE.

Tags are printed 8 to a sheet. I would enter all of your books (it should tell you how many items you have) then I would figure out how many sheets I needed. We’re homeschoolers, so do the math or have your child do the math! Maybe you can share your cardstock with someone if you don’t need 125-250 sheets.
